

WASIF ULLAH

Full-Stack AI Engineer | Computer Vision | LLM Engineering | Cloud Infrastructure

wasif.wweez@gmail.com | +92 318 9340438 | github.com/wasifullah7 | linkedin.com/in/wasifullahdev

PROFILE

Software engineer building AI-driven cloud solutions, computer vision systems, and scalable web applications. Currently building enterprise AI at Strateger AI; previously shipped production systems at Gojins and UNAZ Legal Services.

EXPERIENCE

Full-Stack AI Engineer - Strateger AI, Lahore

Jul 2025 - Present

- Built the AI Board Scanner: diagram recognition using RF-DETR, PaddleOCR and SAM2 segmentation, reaching 0.83 mAP and 97% arrow-association accuracy.
- Engineered binary-mask pipelines with KD-trees and skeletonisation to reconstruct graph topology.
- Deployed LLM conversational agents via Amazon Lex and Bedrock; Dockerised FastAPI on AWS.
- Automated multi-region infrastructure with Terraform and Terragrunt.

MERN Stack Developer - Gojins, Lahore

Aug 2024 - Jun 2025

- Built business management platforms and a real-time portfolio builder with custom domains.
- Shipped a full HRMS covering payroll, attendance, leave tracking and performance analytics.
- Integrated ML models for predictive diagnostics and workflow automation.

Junior Software Developer - UNAZ Legal Services, Nowshera

Jan 2024 - May 2024

- Developed a lawyer case management application and a Zakat automation system.
- Focused on async programming patterns, responsive UI and scalable API design.

SELECTED PROJECTS

- AI Board Scanner (Strateger AI) - RF-DETR, SAM2, PaddleOCR, FastAPI, Docker, AWS. 0.83 mAP.
- Ele(Q)tric - QAOA grid optimisation on Rigetti's 84-qubit Ankaa-3 QPU. ~10x speedup. Live demo.
- Document Intelligence Pipeline - offline RAG: FastAPI, ChromaDB, spaCy, DeBERTa-v3, PyMuPDF.
- AI Career Coach - RAG job recommender on Pinecone, 89% predictive accuracy.
- Pakistani Sign Language Recognition (FYP) - GAN-based assistive system, 85% accuracy.

SKILLS

AI / Vision: RF-DETR, YOLOv8, YOLO-NAS, SAM2, PaddleOCR, OpenCV, TensorFlow, scikit-learn

LLM: RAG pipelines, Pinecone, ChromaDB, Amazon Bedrock, Amazon Lex, fine-tuning, spaCy

Full Stack: React, Next.js, TypeScript, Node.js, Express, FastAPI, MongoDB, PostgreSQL

Cloud: AWS Lambda, SageMaker, API Gateway, Docker, Terraform, Terragrunt

EDUCATION & CERTIFICATIONS

BSc (Hons) Computer Science - University of Engineering & Technology, Mardan (2021 - 2025)

Web Development Specialization, Vanderbilt University

Computer Vision Expert, DeepLearning.AI

Applied Machine Learning, LinkedIn Learning
